How to plan for health research impact

Develop your impact planning skills in this practical Knowledge Translation webinar for health clinicians, researchers and policy-makers.

You'll learn:

- What Knowledge Translation is
- How and when to start planning for the impact of new research discoveries
- How to use Knowledge Translation strategies to transform clinical practice
- The tools and templates to help you plan for impact

This is a great opportunity to connect with, understand and engage with the work of the Collaboration.

We look forward to seeing you there!
